KALEIDO

CIRCUS STAGE

Shanghai Circus World

Shanghai, People's Republic of China, 2010

After 5 years and over 1,600 shows, the Shanghai Circus World, with the collaboration of XYZ Cultural Technology, created a second show in a whole new theatre.

Description

Opening at the Dome Theatre on September 27 2010, *Kaleido* is also a 100-minute multimedia show that combines Chinese acrobatics, martial arts, modern dance, singing, extreme sports and many other Chinese elements. *Kaleido* is providing a journey through time and a back-to-the-future adventure.

In one fabulous scene, lights, smoke, mist and a water curtain create a crystal cave and underwater world. A dancing mermaid is ready to leave the water and witness a magnificent future.
