OUTDOOR THEATRES

Moon Palace

Mayan Riviera, Mexico, 2006

The Moon is the largest hotel of the Palace chain. The Nizuc and Sunrise lobbies each have their own stage, designed to maximize hotel clients' experience. With a minimum investment in infrastructure, these two stages now have the capacity to offer high-quality shows.

Description

The hotel often converts the public space into a banquet hall, allowing clients to enjoy a delicious meal under the stars while watching the show.
