JARDIN DES GLACIERS

ENTERTAINMENT MEDIA MIX

Glacier Exploration

Baie-Comeau, Quebec, Canada, 2009

Installed in a former church, the Glacier Exploration installation is defined by a spectacular raceway consisting of multimedia projections and spectacular scenery all divided into different themed areas.

Description

Traveling in time and experiencing the boreal adventure 20,000 years ago, under the ice, is what's offered to visitors of Glacier Exploration!

Through the magic of sound technology, images, light and multimedia, a virtual expedition takes you to the heart of the glacier and climate change theme.
